Application for Student-Led Educational Booths

We have a limited number of spaces for student-led booths at the 2026 Expo. The details for the different types of booths are described below. The expo education committee will consider each application that is received by March 27, 2026 or until spots are filled. The following will be taken into consideration as approvals are given for applications:

- The order that applications are received.
- The topic being presented.
- The media being used to support the topic (informational posters, handouts, etc.)
- The possible use of hands-on activities to support the topic being presented.

A list of approved booths will be updated daily on the club website until our spaces are filled. For stronger chances of approval, consult that list to choose a topic that has not already been approved.

The Student-Led Opportunities

<u>Teacher-Parent Sponsored</u>	<u>Granville Gardeners Sponsored</u>
<ul style="list-style-type: none">• Booth must be created by a student or group of students under the guidance of an instructor and based on research and experiments by the student(s)• The students will have the opportunity to offer items for sale that support the concepts being presented.• No booth fee for student-created booths (grades 1 through 12, college).	<ul style="list-style-type: none">• Will be created by a team of students under the guidance of the GG expo educational committee. Date of workshop to create booths to be announced.• Students must apply individually for inclusion in these teams. Must be available for workshop date and at least 2 hours on day of expo.• Any money collected for these booths will support the mission of Granville Gardeners.

Information about application process:

- To apply for an educational booth at the expo, fill out the application below.
- The deadline for application is March 27, 2026. Please note that once the spaces are filled, no more applications will be accepted.
- All student-led booths must be confirmed in advance of the event by the education team..

- For more information, contact Doreen Arnott at (919) 559-5971 or doreen.arnott@gmail.com.

For Student-Created Booth Sponsored by Teacher/Parent:

Name of Student(s): _____
